**1110.015**

### **Drivers License**

Implemented: 5/13/08

Revised: 10/31/17

Patrick T Grace, Fire Chief

Page 1 of 1

#### **PURPOSE:**

Frequently, personnel will be required to perform duties for ECFR that require the driving of motorized apparatus or vehicles. To assure that the individual can operate the vehicle safely and legally, the county requires that personnel have an appropriate driver's license.

#### **OBJECTIVE:**

To ensure ECFR personnel meet the requirements for a valid driver's license.

#### **SCOPE:**

All Personnel

#### **PROCEDURE**

All personnel must maintain a valid driver's license. This allows for the operation of emergency apparatus and vehicles throughout their tenure with the department.

Personnel must immediately notify the assigned on-duty Battalion Chief or District Chief any time their driver's license is suspended or revoked for any reason.

No ECFR personnel shall drive any department vehicle or any other vehicle covered by county insurance policies, either in emergency or non-emergency mode, without possessing a valid driver's license.

Upon issuance or renewal of their driver's license, a legible photocopy shall be forwarded to ECFR Headquarters.

#### **DRIVING RECORD REVIEW**

ECFR may periodically review the driving records of its personnel to determine the eligibility of drivers to initially operate, or continue to operate department vehicles and apparatus.
