**PROJECT DESCRIPTION**

This proposed project is for the development of an unplatted single-family residential subdivision, located on 6875 Highway 95A North. This is a three lot, 5.0-acre division, with lot 1 being 3.13 acres, lot 2 being 1.08 acres, and lot 3 being .79 acres. There will be no new roads constructed within the subdivision and all lots will be accessed from public roads. A storm water management plan has been developed for the site utilizing individual storm water facilities for each lot.

**STANDARD PROJECT CONDITIONS**

1. This Development Order shall be effective for a period of 24 months from the date of issuance. Subdivision approval shall expire and become null and void if deeds for each of the subdivision lots or parcels have not been recorded in the public records of Escambia County within the effective period. If the Development Order expires or is revoked and the applicant chooses to proceed with subdivision of the project site, a new subdivision plat application must be submitted for review and approval subject to Code provisions and Level of Service conditions at the time of the new application.
2. This Development Order does not certify concurrency for development of the individual parcels of the subdivision or authorize site development to commence within the subdivision. Site development on an individual parcel of the subdivision requires separate site plan review and approval through the DRC process, and further subdivision of an individual parcel requires separate plat review and approval. Additionally, a valid Escambia County Building Permit must be obtained prior to any building construction.
3. All specifications and requirements expressed or implied by note or drawing, in the subdivision plan approved with this Development Order must be fulfilled.
4. Deeds for each of the subdivision lots or parcels must be recorded in the public records of Escambia County within the effective period of this Development Order prior to the issuance of an Escambia County Building Permit for any individual lot or parcel of the subdivision.

5. All state and/or federal permits or proof of exemption must be obtained prior to the issuance of an Escambia County Building Permit, with a copy provided to the County.
  6. Proof of application from the Emerald Coast Utilities Authority (ECUA) for connection to the sewage system, or from the Escambia County Health Department for an Onsite Sewage Treatment and Disposal System (OSTD), must be obtained prior to issuance of an Escambia County Building Permit.
  7. After issuance of this Development Order, it shall be unlawful to modify, amend, or otherwise deviate from the terms and conditions without first obtaining written authorization through the Development Review Committee (DRC) departments. Approval of such modifications shall be requested in writing and obtained prior to initiating any requested change. The applicable review process for the proposed modification shall be determined based on the applicant's written description of such modifications. Escambia County may require submittal of a new or revised plan and impose additional requirements and/or conditions depending upon the extent of any proposed modifications. The applicant has a continuing obligation to abide by the approved plan. Plan modifications made without written County approval shall automatically terminate and render null and void this Development Order, and shall be subject to penalties and/or increased fees specified by the BCC.
