

THE COUNTY OF ESCAMBIA
PENSACOLA, FLORIDA

SITE PLAN DEVELOPMENT ORDER
with Concurrency Certification

Project: Miller Industrial Park
Location: 100 Industrial Boulevard
Property Reference #: 38-1S-30-3001-007-001
Flood Zone: X

Future Land Use: IN and C
Zoning District: ID-1 and C-2
Development Review #: 08030424

PROJECT DESCRIPTION

Development of the remaining vacant portion of an 11.68-acre parcel for ten buildings to accommodate mixed commercial uses, including warehousing, sales, manufacturing, and service. The development will provide two additional accesses on Industrial Boulevard and 181 additional paved parking spaces. An existing on-site retention pond will be enlarged and a second pond constructed to accommodate the increased site impervious cover. No "protected" trees will be removed from the site. Frontage trees, parking lot trees, and other required vegetation will be provided within site landscape areas. Potable water and sanitary sewer will be provided through connections to ECUA systems.

This project is a revised design of a previously approved site plan (DRC #07080028) for the purpose of reducing the size of two buildings and providing additional parking to allow uses other than warehousing. **This County approval voids the Development Order for Miller Industrial Park approved 12-12-07, and fully replaces the 15-sheet site development plan, its drawings, specifications, and requirements.**

STANDARD PROJECT CONDITIONS

1. This Development Order with concurrency certification shall be effective for a period of 18 months from the date of approval. Site plan approval and concurrency shall expire and become null and void if a permit for the approved development has not been obtained from the Building Inspections Department (BID) within the effective period and no extension has been applied for. After issuance of such permit, site plan approval and concurrency shall only terminate upon permit expiration or revocation by the BID. The Board of Adjustment may grant one extension for a maximum of 12 months to the original effective period of the Development Order, but application for such extension must be submitted before termination of the initial 18-month period. If the Development Order expires or is revoked, allocated capacity will be withdrawn and made available to other applicants. If the applicant chooses to proceed with development of the project site, a new site plan application must be submitted for review, approval, and capacity allocations subject to Code provisions and Level of Service conditions at the time of the new application.
2. This Development Order alone does not authorize site development to commence. A valid Escambia County Building Permit must be obtained prior to any building construction. Site development as described on the approved site plan, including protected tree removal and grading, may occur under the authorization of the

Building Permit. However, commencement of such activity prior to issuance of a Building Permit will require a separate **Pre-construction Site Work Permit**, or if no Building Permit is applicable will require a separate **Parking Lot Permit**, obtained from the Building Inspections Department, with erosion control, tree protection, and all other provisions of the approved site plan fully applicable and enforced.

3. All specifications and requirements, expressed or implied by note or drawing, in the site development plans approved with this Development Order must be fulfilled.
4. No development activities may commence in areas regulated by state or federal agencies unless all required state and federal permits, or proof of exemption, have been obtained and a copy provided to the County.
5. Proof of application from the Emerald Coast Utilities Authority (ECUA) for connection to the sewage system, or from the Escambia County Health Department for an Onsite Sewage Treatment and Disposal System (OSTD), must be obtained prior to issuance of an Escambia County Building Permit.
6. After issuance of this Development Order, it shall be unlawful to modify, amend, or otherwise deviate from the terms and conditions without first obtaining written authorization through the Development Review Committee (DRC) departments. Approval of such modifications shall be requested in writing and obtained prior to initiating construction of any requested change. The applicable review process for the proposed modification shall be determined based on the applicant's written description of such modifications. Escambia County may require submittal of a new or revised plan and impose additional requirements and/or conditions depending upon the extent of any proposed modifications. The applicant has a continuing obligation to abide by the approved plan. Initiating construction of plan modifications without written County approval shall automatically terminate and render null and void this Development Order, and shall be subject to penalties and/or increased fees specified by the BCC.
7. A copy of this Development Order and the approved site development plans must be maintained and readily available on site once any construction activity has begun, including clearing and grading. The approved building construction plans must also be on site once any building construction has begun.

SPECIAL PROJECT CONDITIONS

1. Total 11.68-acre site sign area, wall and freestanding, is limited by the Land Development Code (LDC) to 2396 sq.ft. (1597.08 x 1.5). Total wall sign area per building is additionally limited to 10% of the area of wall surface facing Industrial Boulevard, and no one sign may exceed 200 sq.ft. Freestanding signage is additionally limited to four signs, each a maximum 100 sq.ft. in area, a maximum 20 feet in height, a minimum 200 feet from any other such site sign, and a minimum 10 feet setback from rights-of-way. The signs must maintain visual clearance along rights-of-way and at driveways and intersections. Existing development utilizes three of the available freestanding signs and the developer has designated the remaining sign as an entrance sign according to the park's master sign plan, attached as Exhibit A. A valid Escambia County Sign Permit must be obtained prior

Miller Industrial Park Master Sign Plan

Summary

The total site sign area wall and freestanding is limited to **2,396** (1597' x 1.5).
Total wall sign area is additionally limited to 10 % of the area of the wall surface facing Industrial Blvd. And no one sign may exceed 200 SQ.

to erecting, constructing, altering, or relocating any site signage. These signage conditions do not preclude variances that otherwise may be allowed by the provisions of the LDC.

2. Solid waste collection areas (e.g., dumpsters) shall be screened from view from adjoining property and the public right-of-way.

Development Review Committee (DRC) Final Determination

Having completed development review of the revised **Miller Industrial Park** site plan application referenced herein, in accordance with requirements of applicable Escambia County regulations and ordinances, the DRC makes the following final determination:

- Approve The development plan is approved. The applicant may proceed with the development subject to the project description and project conditions noted herein. Use other than that described, or conditions not satisfied, constitute a violation of this Development Order and render it void. Further, this approval does not constitute approval by any other agency.
- Deny The development plan is denied for the reasons noted below. The applicant may appeal the decision within 15 days from the date below to the Board of Adjustment (BOA) under the provisions of Section 2.04.00 of the Escambia County Land Development Code, and/or submit a new or revised site plan application for review.
