---

Electricity has been restored to all homes and businesses that are ready to receive power in Escambia River Electric Cooperative's utility system. EREC is unaware of any additional outages so any member who can receive service and has not yet had their power restored should call 1-800-235-3848. With full restoration to EREC's service area complete, the clean-up process will now begin with crews removing broken poles, transformers and other debris. EREC thanks the many cooperative crews who provided their services to our area. Escambia River EC values each and every member of our cooperative, and we thank you for your patience and understanding during this difficult time.

EREC is a Touchstone Energy cooperative that distributes electricity to approximately 10,000 members in northern Escambia and Santa Rosa counties in Florida.
