Hurricane Ivan Update Gulf Power Damage Assessment

- Gulf Power President and CEO, Susan Story, reported that Gulf Power has sustained major and in some cases catastrophic, damage to transmission and distribution lines, one of the generating plants, offices, and operating facilities. Their employees and their families, like everyone else, have sustained loss and damage to their homes and personal property, but will be returning to work today and every day, and working around the clock to help get the power back on as quickly as possible.
- Pensacola Naval Air Station officials have reported that Pensacola Naval Air Station is closed to all personnel except for restrictive personnel
- Phone service to the Escambia County Citizens Information line has been restored. Only general information calls should be made to the Citizens Information Line.
